

# NEUTRALS ARE WARNED AWAY

[Special by Scripps-Mellae.]

St. Petersburg, Nov. 11.—No neutral power or combination of neutral powers can stop the war in the far east. Russia is unalterably determined to carry it to its logical conclusion of overwhelming victory or overwhelming defeat. No proposal of mediation by a neutral power will be considered. None is expected. From Japan, and only from Japan, direct and official, will any proposal looking to a termination of hostilities be entertained.

This, in effect, is the substance of opinion reiterated at the Russian war office tonight.

No official confirmation is obtainable of the report that a tentative proposal to end the war and its attendant carnage has been made by Japan and rejected by the Russian government.

The scarcely veiled hint of Anglo-American interference uttered by the British minister of foreign affairs, Lord Lansdowne, meets with no favor in St. Petersburg. In official circles it is believed that the possibility of outside interference, in view of Russia's emphatic opposition so repeatedly expressed, is so remote as to be altogether negligible.

Nation's Prestige at Stake.

Stronger than ever now does the feeling prevail in every stratum of Russian society that the nation's prestige must be vindicated before any suggestion of peace can be entertained.

The mere fact that the suggestion comes from Great Britain's foreign secretary does not tend to its kindly reception here. The firm conviction is expressed that Lord Lansdowne's suggestion could not have been the result of an understanding between the British and French governments. It being stated that the Russian view of the situation is too well known in her ally to make it possible that she could have been a party to such a move. The general opinion is that Lord Lansdowne's suggestion was in the nature of a personal trial balloon.

May Accept Arbitration.

Hopeless as is the idea of bringing the war to a conclusion, it seems, however, that there are those in high quarters who consider that there is a bare possibility of bringing the conflict to a close on the basis of arbitration. If such a proposition came directly from Japan. Indeed, it is even intimated that Lord Lansdowne's suggestion may have been inspired from Tokio.

Russia has announced again and again that no proposition from an uninterested power would even be considered, but that any proposition from

Japan direct, no matter through what intermediary, would be considered.

A proposal from Japan to arbitrate the controversy would appeal strongly to Emperor Nicholas. He is extremely proud of being the author of The Hague conference and in spite of the difficult position in which Russian military prestige would be left by the cessation of hostilities at this juncture, those competent to judge actually entertain the belief that such an offer on the part of Japan now would not be in vain.

## ASKS FOR ARMISTICE.

Belief That Gen. Stoessel Desires to Remove Women and Children.

Tokio, Nov. 11.—Driven to the wall, Gen. Stoessel has asked the Japanese for an armistice. This, first reported here early Wednesday, was practically confirmed Thursday night.

It is believed here that the Russian commander desires time to get the women and noncombatants out of the fortress before the final combat, fearing that it may be impossible for the Japanese officers to restrain their troops from indulging in a general massacre as soon as the city is entered.

The Japanese soldiers are furiously angry as a result of stories of cruel treatment alleged to have been given their wounded by the Russian soldiers.

Military officers attached to the Japanese war office staff expressed the opinion that unless Gen. Stoessel capitulates before the city is taken by the Japanese it is more than possible that the Japanese troops will exact vengeance for all they have suffered through the siege.

Gen. Nogai has not yet reported the Russian petition for an armistice, but it is considered almost certain here that it will be granted.

Bombardment is Still Kept Up.

The bombardment of the fortress is continued with undiminished severity.

A report from Gen. Nogai's headquarters, dated Nov. 9, says:

"The enemy's military warehouse, situated in the northern part of Port Arthur, was bombarded Nov. 6 with heavy siege and naval guns. The bombardment caused a conflagration. On the afternoon of Nov. 6 the magazine of an old battery on Sungchow mountain was exploded by our shells."

Manchurian headquarters, reporting Nov. 9, says: "On the night of Nov. 8 two companies of the enemy attacked our outposts, but were completely repulsed."

## SHOWN BY INDIAN CENSUS.

Important Changes in Religions of Oriental Empire.

Some interesting knowledge concerning religions in India is presented by the census. The number of Brahmin Hindus in 1901 was 207,050,557, or 7 in 10 of the population. This great sect, broadly speaking, has declined 39 in 1,000 since 1891, but chiefly because of famine and marriage customs. The Mohammedans, in the same decennial period, managed to increase 9 per cent, their total number now being 62,458,077. Assertions often made that Mohammedanism is gaining ground in India this appear to be well founded, and it is evident that, at the present rate of increase, that religion may sometime dominate the country. While Buddhism increased 33 per cent it is confined almost exclusively to Burma; and there most of the 3,000,000 nominal adherents of the Buddhist cult are really bound to an ancient demon worship. As for Christianity in India, the census of 1901 returns 2,923,211 professors of the Christian faith, an increase of 31 per cent since 1891. This growth seems decidedly encouraging, but it must be said that, according to the official view, the returns of Christians were swelled by the inclusion of famine victims, who were cast upon Christian charity in large numbers by the terrible famines of the past decade. It is also stated that in Madras and Bengal the more degraded classes tend to become converts to Christianity for social reasons.—Montreal Herald.

## Ivy in the House.

A small country hostelry near Boston, in Lincolnshire (Eng.), can show a curious sight. The exterior of the house is covered with ivy. This has found its way through the bricks and invaded the interior of the taproom. The proprietress has now trained the ivy so that it has spread all round the room, and the unusual sight can be witnessed of ivy growing inside a room.

In spite of the strictest precautions, the South African diamond companies, it is estimated, lost over \$2,000,000 a year by the theft of precious stones.

## TIMBER TRESPASS IS CHARGED

Congressman is Made Defendant in a Suit for \$91,000.

St. Paul, Minn., Nov. 11.—C. B. Buckman of Little Falls, Minn., who was re-elected Tuesday from the Sixth congressional district by a greatly reduced majority, has been made defendant in a suit brought on behalf of the state for \$91,000. The complaint was filed in Ramsey county district court by Attorney General Donahoe. In it the allegation is made that Buckman trespassed on state pine lands by removing timber of sufficient value, with the penalties provided by statute, to bring the amount of damages to the figure alleged. The offense is alleged to have been committed prior to 1898.

## NEW GOVERNOR OF MINNESOTA

Offspring of Poor Parents, He Forces His Way to the Executive Chair.

## WINS IN VIGOROUS CAMPAIGN

Is Elected in Face of Slurs on His Origin by 13,000 Plurality on Democratic Ticket, as Against 125,000 for Roosevelt.

St. Paul, Nov. 11.—John A. Johnson, whose father died in poverty, and whose mother did washing to support a large and helpless family, and who was taunted with these facts during the campaign, has been elected governor of this state by a plurality that will exceed 13,000. He was the Democratic candidate, and President Roosevelt carried the state by a plurality of not less than 125,000. The campaign against Johnson's lowly origin had a reactionary effect, and the people are proud of their governor-elect, who has worked his way to the highest office in the state against odds and obstacles that have tried his mettle and found it always true. Now he is projected on the political screen as a candidate for the highest office in the nation.

## Hustling Ability Wins.

Robert C. Dunn, the Republican candidate, had for several years been looked upon as the logical candidate for the Republican nomination, but he won the honor only after a bitter factional fight which split the party. Johnson was nominated by the Democrats when there was but the faintest hope of electing him. The nomination was given him in the nature of an empty honor.

But Johnson, always vigorous, always earnest and sincere, took his nomination seriously. No sooner had the campaign entered upon its first stage than he and a handful of friends began a most vigorous agitation. The faction of the Republican party which had practically forced the nomination of Dunn drafted into service Senators Nelson and Clapp and made strenuous efforts to counteract the tide setting in toward Johnson.

House-to-house canvases. Meanwhile Johnson, who is of Swedish parentage, was making a house-to-house canvases of the state. The fact that he is a Swede and a native of the population, and his progress alarmed the Republican managers. The newspapers of the Twin Cities took up his cause, tentatively. With one exception they did not support Dunn with anything approaching vigor or effectiveness.

At this stage of the campaign a series of stirring attacks upon the lowly parentage of Johnson began to circulate. Circulars, widely distributed, but the authorship of which could not be traced, announced that his father died a pauper. This statement was backed by an affidavit. Stress was laid upon the fact that his mother had taken in washing. The intent was clearly to prove that Johnson had suffered his father to die a pauper when he could have supported him.

## MILITARY SECRETARY MAKES FIRST REPORT

United States Army Consists of 3,871 Officers and 68,946 Enlisted Men—State Militia Inspections.

Washington, Nov. 11.—The annual report of Gen. F. C. Alsworth, the military secretary of the army, the first issued from his office since its creation by congress at its last session, gives the total strength of the army at the close of the last fiscal year at 3,871 officers and 68,946 enlisted men. The loss of officers from death, dismissal, retirement and other causes was 156. The number of enlisted men lost by death was 456.

Speaking of the militia, it is said that very satisfactory progress has been made toward bringing the organized militia, respecting armament, equipment and discipline, up to the standard of the regular army. A total of 6,966 officers and 83,102 enlisted men of the militia organizations were present at the inspections. Referring to the act of congress providing for a roster of officers and enlisted men of the Union and Confederate armies, the report says that the responses of the governors addressed inviting their co-operation have been such as to assure the department that they fully appreciate the importance in its efforts to give to the Confederate soldier the place that is due him in the proposed compilation.

## HIGH CLIMBER JUST AS A FALL

"Steeple Jack" Loses Grip and is Fatally Injured.

Johnstown, N. Y., Nov. 11.—"Steeple Jack" McClure of this city took a fatal fall from a high factory chimney at Fultonville, N. Y. He lost his grip on a cable on which he attempted to descend from the top of the chimney, and fell to the ground, landing on his feet. Most of the bones in his body were broken. He was widely known in this section as a steeple climber. McClure was 55 years of age.

# YIELD OF CORN THE GREATEST

Averages of 26.7 Bushels Per Acre in 1904 Compared with 25.5 in 1903.

## THE QUALITY SHOWS AN INCREASE

Gain Three and One-Tenth Per Cent Over Last Year's Crop—Other Crops Are Also Larger.

[Special by Scripps-Mellae.]

Washington, Nov. 11.—Preliminary returns to the chief of the bureau of statistics of the department of agriculture on crops for 1904 are made public.

Estimates on the production of corn in 1904 indicate a total yield of about 2,453,000,000 bushels, or an average of 26.7 bushels per acre, as compared with an average yield of 25.5 bushels per acre as finally estimated in 1903. 26.8 bushels in 1902 and a ten-year average of 24.2 bushels. The general average as to quality is 86.2 per cent, as compared with 83.1 last year, 80.7 in 1902 and 73.7 in 1901.

It is estimated that about 4.6 per cent of the corn crop of 1903 was still in the hands of farmers on Nov. 1, 1904, as compared with 5.2 per cent of the crop of 1902 in farmers' hands on Nov. 1, 1903, 1.5 per cent of the crop of 1901 in farmers' hands on Nov. 1, 1902, and 4.6 per cent of the crop in farmers' hands on Nov. 1, 1901.

## Buckwheat and Flaxseed.

Buckwheat.—The preliminary estimate of the average yield per acre is 18.9 bushels, against an average yield of 17.7 bushels in 1903, 18.1 bushels in 1902 and a ten-year average of 17.9 bushels. The average for quality is 81.5 per cent, against 81.4 last year, 83.1 in 1902 and 83.3 in 1901.

## President Orders

## POSTOFFICE PROBE

Railway Mail Contracts Have Been Under Investigation by the Department of Justice.

Washington, Nov. 11.—A new investigation of the postoffice department is now under way. It involves the railway mail service, which calls for the largest single item of expenditure in the service. Half a dozen railway mail contracts are now before the department of justice for examination as to their legality, and an investigation of charges of collusion by the government officials, some of whom are supposed to be in congress, is being made.

President Roosevelt ordered this investigation before the death of Postmaster General Payne, but the fact that the inquiry has been going on for nearly two months has been kept quiet. The report of the department of justice will be made to the president, who will take up the matter with Postmaster General Wynne for whatever action development may show to be necessary.

In ordering the railway mail contracts to be examined secretly the president has stolen a march on members of congress, who have always protested against such an investigation on behalf of the railroads. These protests have not been confined to the majority party, for Democrats have come forward whenever the railroads in their part of the country have been suspected of charging more than a just price for mail transportation.

One reform likely to follow in this department applies to the method of weighing mails on which to base a price to be paid to the railroads. This weighing is done once in four years for a short time and on this basis a four years' contract is based. It has been charged that mails were increased during these periods by collusion between postoffice officials and the railroad companies.

At the time of the postmaster general's last annual report there were 2,635 railroad routes, with a total length of 192,852 miles and an annual travel of 333,491,084 miles, costing \$36,607,624.80 a year. The amount paid for railroad transportation is rapidly growing each year. The appropriation for the year ended last June was \$38,242,000, while the estimate for the next fiscal year is \$39,608,000.

## Big Yield of Potatoes.

Potatoes.—Preliminary estimates of the average yield per acre is 110.4 bushels, against an average yield of 84.7 in 1903, 96 bushels in 1902, and a ten-year average of 81 bushels. Average as to quality, 93.4 per cent, as compared with 86.4 per cent one year ago, 90.4 in 1902 and 78.4 in 1901.

Hay.—Preliminary estimate of average yield per acre, 1.52 tons, against an average yield of 1.54 tons in 1903, 1.50 tons in 1902 and a ten-year average of 1.55 tons. Average as to quality, 92.7 per cent, against 91.3 one year ago, 85.7 in 1902 and 91.3 in 1901.

## Tobacco Increases.

Tobacco.—Preliminary estimate of average yield per acre of tobacco is 819 pounds, as compared with the final estimate of 786.3 pounds in 1903, 797.3 pounds in 1902 and a six-year average of 730.7. Average as to quality, 88.5 per cent, as compared with 85.9 per cent one year ago.

Rough rice.—Preliminary estimate of the average yield per acre of rough rice, 32.3 bushels, against an average yield of 32.7 bushels in 1903 and 27.2 bushels in 1902.

## Coming Attractions.

Klaw & Erlanger have long held the proud position of the leading producers of theatricals on an extensive scale in this country. The Harry B. Smith and Gus Kerker spectacular musical comedy, "The Billionaire," which they will present at the Myers Grand, Nov. 17, promised to be one of their greatest and most successful efforts. It was the reigning attraction at Daly's theatre, New York, for sixteen weeks last season. It is said to be absolutely new and novel in the musical comedy line. The foundation upon which the author has built his story of pleasing fun and musical novelty is the character of John Doe, a young American Billionaire, who has so much money that he has to invent all sorts of schemes to get rid of it. The opening scene is at Nice, where he meets a dashing young American actress, named Pansy Good, of Bird Center, Iowa, and proposes to her that he will erect a theatre in New York and write a play, which will present her as a star to the American public. The theatre project takes the whole party to New York. The second act opens upon one of the clearest and most convincing scenes constructed in a "long while. It represents a stage upon a stage, upon which a vaudeville performance is given. In connection with this circumstance of the story many familiar happenings of a Metropolis first-night will be laughably burlesqued and used to create much fun and humor. The performance will possess unusual interest from the humor of the story, the brilliancy of its magic music, and the whirlwind pace with which it is presented. Rapidly of action has always been a characteristic of Klaw & Erlanger's musical productions, and it is predicted that "The Billionaire" will create something of a sensation in this respect.

Japan-Russia. The amusement lover who likes sensation, yet wants it rational and consistent, "In the Far East" should prove a dramatic treat. The play deals with the present trouble between Russia and Japan and the very nature of the subject affords an abundant field for interesting characters, sensational scenes and incidents and lavish display of scenic splendors and stage pictorial. John Crittenden Webb, who has written many successful plays, has furnished in this piece something that appeals to all classes. Using authors stage license he has introduced an American hero, a Japanese heroine and a pretty love story, intermingled with bright comedy, serves to offset the more sombre scenes and sensational effects. Scenically the production is one of the most massive ever seen with a melodramatic attraction. In one scene alone, the harbor of Port Arthur, eleven working vessels are shown ending with a terrific naval battle and the sinking of the Russian battleship, Petropavlovsk. More than fifty people are used in the production which comes to the Myers Grand soon.

An Ordinance to Amend an Ordinance Entitled "An Ordinance to Regulate the Stringing of Wires in the City of Janesville."

The Mayor and Common Council of the city of Janesville do ordain as follows:

Section One. Section four of an ordinance entitled "An Ordinance to regulate the stringing of wires in the city of Janesville" is hereby amended to read as follows:

Section Four. All trolley wires shall be of a height of not less than twenty (20) feet. The lower cross arms of all poles, masts, towers, and supports for electric wires used for lighting purposes or for the transmission of electricity for power shall be not less than forty (40) feet above the ground on North and South Main streets from Division street to Academy street, and North and South River streets from West Bluff street to Pleasant street, and on Franklin street from West Bluff street to Wall street; within the fire limits; not less than thirty-five feet above the ground on all other streets, lanes, alleys, and public grounds within the fire limits; and not less than twenty-five (25) feet above the ground on all streets, lanes, alleys, and public grounds in the city outside of the fire limits. The lower cross-arms of all other poles, masts, towers, and supports for wires shall be not less than forty (40) feet above the ground on North and South River streets, East and West Milwaukee streets, and North and South River streets, within the fire limits; not less than thirty-five (35) feet above the ground on all other streets, lanes, alleys, and public grounds within the fire limits; and not less than thirty (30) feet above the ground on all streets, lanes, alleys, and public grounds in the city outside of the fire limits. All such poles, masts, towers, and supports shall be of sufficient height above the upper cross-arms to permit the attachment of guard-wires thereto.

Section 1 "a." All persons and corporations are hereby given 90 days after the passage and publication of this ordinance in which to comply with the terms thereof.

Section Two. This ordinance shall take effect and be in force from and after its publication and passage, which publication shall be for three (3) successive days.

Passed Oct. 31st, 1904.

J. F. HUTCHINSON, Mayor.

A. E. Badger, City Clerk.

PIETY AND FINANCE ARE MIXED.

Pupil Demands Restitution of Bible Teacher He Trusted.

St. Louis, Nov. 11.—A suit was entered in the circuit court by Leo Rodgers against Edward Rice, in which he alleged that because he was a pupil of Rice, a Bible teacher, he was led to intrust him with \$1,800 for investment, which he has lost. The money, Rodgers states, was intrusted to the teacher in October, 1903. An excerpt from the petition reads: "Rice enjoyed the confidence of the plaintiff by the reason of great profession of piety made by him and of the zeal which he manifested as the teacher of the class and of the interest he pretended to have in the spiritual and material welfare of the plaintiff."

## PAINLESS DENTISTRY

I have long had a reputation for PAINLESS WORK, because I have given it my close thought and study for many years. But only within recent months have I been able to treat the severe cases without hurting.

Now, however, I can fill or crown the most sensitive tooth without a particle of pain.

I can cut into a "live nerve" and remove it immediately without the patient's knowledge.

If you place yourself in my care, you may be cured of receiving the most careful and considerate attention, coupled with all the skill I have been able to acquire in my 15 years of practice.

As to prices, some dentists will charge you DOUBLE my prices.

On the other hand, I do not stoop to meet the quack dentists whose advertised prices in most cases do not cover the cost of honest material. I endeavor to occupy a medium reasonable ground where I can live and you get full value for your money.

## WHITEHEAD'S VICTORY.

The election of John M. Whitehead comes as a blow to the supporters of the Governor in Rock county. Every means possible was taken to defeat him and tricks that are dark were put in operation to bring about the election of Richmond. Since early last spring the La Follette men have been diligent in their work. At the time of the caucuses they worked like beavers. They imported political writers, hired columns of the morning paper and tried to disprove Whitehead's character. When nominated they sought to find some good democrat to whom they could tie to who would be able to defeat the Senator from the twenty second. Failing in this they sought to deal directly with Mr. Richmond, the democratic nominee. Whether they succeeded or not cannot be stated, but under his guidance circulars identical with those distributed last spring were sent out with the statement that Richmond was all right on these subjects. Then the governor came into the country on a crusade against Whitehead, Norcross and Hansen. He spoke both here and at Beloit and urged his hearers to vote for Richmond and the democratic nominees for the assembly. Senator Whitehead's majority of eighteen hundred is a just rebuke to the governor of his interference in the republican politics of Rock county. The voters of Rock, nearly six thousand of them, attested their loyalty to the cause of republicanism by voting for the re-election of the Senator. Senator Whitehead goes back to the state senate a much honored man. He has been elected to the highest legislative body in the state in the face of the greatest of obstacles. He did not receive the La Follette vote of the county for reasons best known to those voters, but he received enough votes to be one of the leaders in the coming sessions of the legislature for the next four years.

## THEODORE ROOSEVELT.

Theodore Roosevelt has been elected President of the United States by the largest popular vote ever given any president in the history of our country. He has carried states hitherto considered as members of the plan of the solid south. He has journeyed east and west and gathered votes at every highway and byway. After three such overwhelming victories as the republicans have had in the past eight years it would seem as though the stability of this country was assured. Wisconsin did her share in making the majorities larger than ever before and despite the predictions of the wisecracks who claimed Wisconsin as a doubtful state it has swung into the republican column as strong as ever. Roosevelt is to be president of the United States for four years more and every man who believes in sound government rejoices.

A Baltimore republican died while laughing at the discomfiture of the democrats. An Indiana democrat killed a republican with a welting hammer. A Sterling, Ill., democrat committed suicide because he had lost his house on an election bet. Altogether, the returns seem to have been received with about the same composure on both sides.

Yost is a great coach. Just now he has Alonzo Stagg of the Midway Institution "frazzled" in the bear story competition. Seven of his big giants are crippled and in bed and the four remaining are not good for much.

More men will have to be very meek next week. Just the same, it must be remembered not a single Janesville lady took advantage of her opportunity to vote for school commissioner at the last spring election.

Assemblyman Leroy of Marinette, Isaac Stephenson's home county spoke out for Senator Quarles as soon as the returns were in. This is one of the minor jars, but one of the earliest.

The badgers took their hand and several hundred rosters to Minneapolis, hoping against hope that they may have something to play and shout for. Here's hoping!

Few people knew that there was no nominee for coroner on the republican ticket and that we may have a social democrat or a prohibitionist in that office for the next two years.

Our Michigan friends are to try their skill against the "Midway Dancers" at Chicago. Mister Stagg may have to "Hurry Up" before the game is over.

Janesville is soon to have another inundation of art. Connoisseurs should be refurnishing their vocabularies.

There is no hope now of a Filipino insurrection to help matters along. Their chance faded when Roosevelt was elected.

Farmers are now gaining confidence in their own skill when prices of their produce continues to go skyward.

Douglas, the shoe man, won. Why not capitulate to the suffragists and give Lydia Pincham a chance?

Bryan smiles and says, "Well I told them so." Lots of others told them the same thing.

Sugar beets are now attracting more of the farmers attention than they did last Tuesday.

Marquette Eagle Star: Even E. C. Wall might have made a better showing than Parker did.

Achison Globe: Heretofore, we have trusted to the "honor" of boys on Halloween. Next year we intend to place our trust in a shot gun.

Superior Telegram: Let not the successful fellow now be "consumed with envy and exalted," but let everyone smile and take a rest, and be a good citizen and be happy.

Racine Journal: Garden sass seed will be liberally distributed by the government during the coming few months. At least 1,000 tons will be sent out.

Oshkosh Northwestern: With political news all played out, the newspapers will now be compelled to fall back on such items as the payment of frank election bets and that big turkey raised especially for the president's table.

Waukesha Freeman: It may not be to your liking, the way this election went, but you can at least appreciate the fact that there will be a plenty of opportunities to fight it out in the future.

La Crosse Tribune: Let all personal feeling aroused by the campaign terminate on the close of election day. We can cling to our principles as well, and do our work better, if we forget rancor and let us whistle on our way.

Racine News: It will be awfully quiet now—unless someone can arrange for a joint debate between Dr. Swallow and Bishop Potter, sponsor for the ecclesiastical "saloon."

El Paso Herald: As Chicago is built on a foundation of blue clay it ought not to be difficult for her to eclipse the records of both New York and Boston in digging subway tunnels; both the eastern cities are underlain by the hardest kind of granite.

Chicago Tribune: He said frankly a year ago that he was a candidate, and they got out of his way. He says now, with equal frankness, that he will not be in their way in 1908. They will begin at once to lay wires. As for the president, he has reached the summit of his political ambition. He

B. W. Beobe and daughter, Mrs. Cora Beobe left Wednesday morning for their home in Washington, D. C., after a couple of weeks visit in the city.

**EMERALD GROVE**  
Emerald Grove, Nov. 11.—On Friday evening, Nov. 25 at the Congregational church, the Ladies Auxiliary will present two very interesting plays, entitled "Pats of Society" and "Two Ghosts in White." Besides these they will furnish you music and readings before and between the plays all for the small sum of ten and fifteen cents. This is a real treat which you cannot afford to miss.  
John Little and E. C. Ransom shipped sheep from Avalon to Chicago Tuesday.  
Mrs. W. D. McArthur and children who have been visiting relatives here for the past few weeks left Thursday for Chicago for a short visit and will return to their home at San Francisco, Cal., about the first of December.  
C. D. Fitch and family intend to leave Saturday morning for a visit with relatives at Oakland, Wis.  
Next Sunday is communion sabbath, and at that time the pastor will be pleased to baptize children or receive into the church anyone who desires to join. Preparatory service will be held Saturday afternoon at the parsonage.  
The mid-week prayer meeting will be held on Wednesday evening of next week at the home of C. D. Fitch.

**RICHMOND**  
Richmond, Nov. 11.—Misses Edith and Alice Keith of Whitewater came to see their relatives here.

**AN OBJECT LESSON.**  
In a Restaurant.  
A hysela puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of hearty, vigorous old men at the tables: men whose ages run from sixty to eighty; many of them bald and all perhaps gray, but none of them feeble or senile? Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something.  
If you will notice what these hearty old fellows are eating, you will observe that they are not munching bran crackers nor gingerly picking their way through the menu card of new fangled health foods; on the contrary they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.  
The point of all of this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavor to live upon bran crackers.  
There is a certain class of food cranks who seem to believe that meat, coffee and many other good things are rank poisons, but these cadaverous sickly looking individuals are a walking condemnation of their own theories.  
The matter is in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantities, any wholesome food will be promptly digested; if the stomach does not do so, and certain food causes distress, one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty, because they supply just what every weak stomach lacks, pepsin, hydrochloric acid, diastase and nux.  
Stuart's dyspepsia tablets do not act upon the bowels and in fact are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus giving the stomach a much needed rest and an appetite for the next meal.  
Of people who travel, nine out of ten use Stuart's Dyspepsia Tablets, knowing them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to all hours of the day and all kinds of food, the travelling public have for years placed their faith in Stuart's tablets.  
All druggists sell them at 50c per package and any druggist from Main to California, if his opinion were asked, will say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

out to attend the social Friday evening, returning Saturday.  
Mrs. Don Worthington and children of Corliss are visiting her parents, Mr. and Mrs. Benjamin Clark.  
The marriage of Will J. Delaney and Miss Kittle Ryan of Whitewater will take place next week.  
There will be a concert at the M. E. church on Friday evening, Nov. 18. A good program is in preparation, one of the speakers being Roy Harvey of Delavan, who recently won the medal at the state contest.  
Mrs. J. E. Nott and sister Mrs. Thompson of Delavan spent a day visiting in Lima with relatives last week.  
Miss Mattie Gibbons is having a vacation from school duties this week.

**MAGNOLIA**  
Magnolia, Nov. 11.—Mr. Oliver Brown had the misfortune to have two of his fingers taken off in a corn shredder last Monday afternoon.

The Royal Neighbors will entertain a number of the nearby camps on Saturday afternoon, Nov. 19th.  
Mr. and Mrs. Post of Brodhead spent Sunday and Monday with Mr. and Mrs. Fred Mau.

**SOUTHWEST LIMA**  
Southwest Lima, Nov. 10.—John Waltham's corn shredder has been doing some good work for Will Shennel and John Lackner Monday and Wednesday. He moved to Will McDannell's Wednesday evening.  
Quite a large crowd attended the party given at the home of Mr. and Mrs. John Lackner, Friday evening and all report a pleasant time.  
Miss Hattie Shennel visited her friend, Bessie Hunt, in Whitewater a few days this week. Mr. and Mrs. Hart Wright visited his brother Fred near Whitewater last Sunday.  
Hiram Dixon was a business caller in Janesville Saturday.  
Mr. and Mrs. Will Shennel and daughter and Mr. and Mrs. John Lackner were pleasantly entertained at the home of Mr. and Mrs. Henry Kranz Tuesday evening.  
Mrs. Roy Van Horn and little daughter Opal are visiting at the home of her grandparents for a few days.

## DAILY THOUGHTS.

Monday—Order is the sanity of the mind and the health of the body.

Tuesday—Whilst a man seeks good ends he is strong by the whole strength of Nature.

Wednesday—He submits to be seen through a microscope who suffers himself to be caught in a fit of passion.

Thursday—He is not only idle who does nothing, but he is idle who might be better employed.

Friday—He who gives himself airs of importance exhibits the credentials of impotence.

Saturday—If you make money your god, it will plague you like the devil.

Sunday—If you will be governed by reason, and be true to the best of yourself, you will be happy.

## BROTHER DICKEY'S SAYINGS.

Poverty sometimes teaches us more lessons in a minute than riches kin in ten miles.

Satan is a great one to play the fiddle, on the collect the money from all the dancers.

I have seen some men that find the church does not have the privilege of falling away from grace.

Many folks goes round lookin' for trouble with a candle, when all the time the bright sun is blazin' the road to happiness.

Dar's work or nough in his old world to keep us all busy. If we ain't at the right work we got work to do to keep one mile ahead of the sheriff.

—Atlanta Constitution.

## BREVITIES.

He who would rule must serve, and make his admirable service the ground of his invitation to leadership.

In spite of the bachelor girls and their declaration of independence, the women who marry and have children control the future.

Things that women can do better than men they will always be invited to do. Things that men can do better than women they will do; and in the long run nature will be the umpire against whose decisions no protest will avail. —Christian Register.

A Nice New "Problem." Some unemployed mathematician-physicist has figured out that the rivers of the world pour eighty-six cubic miles of water into the various oceans every day. It would be nice to have some disengaged chemist explain where all the salt to go with it comes from.

## J.M. BOSTWICK & SONS.

### Knitted Elder Cloth

We wish to direct your attention to the new **Elder Cloth** made especially for both robes, saques, children's cloaks, &c. It is a knitted fabric with an elder-down surface, thick but downy, and will not rough up. This beautiful material we show in plain colors and lovely fancy styles in great variety. See it in the domestic department. Width 27 inch; price 25c.

### INTERLINING

A new idea in **interlining** that is meeting with much favor is an all wool material with a fine fleecy surface, knitted back, and will not bunch up. It is very light but adds much warmth to a garment. Can be seen at lining counter. 72 inch, 60c.

### The Cloaks at \$4.48 and \$5.48

should be seen by every woman looking for something extra good at a small price. They are actually worth \$10 to \$20. We have sold them freely but want to sell them faster as we need the room. They would not last a week if people knew their real worth. While we offer these cloaks at only \$4.48 and \$5.48 it does not mean that they are "off styles." One can see hundreds of cloaks worn on the street that do not compare to these for style.

### Underwear at 19c and 39c

Look at the great bargains in **Underwear** on large table in south store. **Vests, Pants, Union Suits**, odd lots, broken sizes that have been sold at 50c to \$1.50, many being all wool.

It's an opportunity. We have enough to hold out for two weeks rapid selling.
